

Office of Research Development

The Office of Research Development (ORD) provides resources, services, and training to increase faculty competitiveness in obtaining extramural funding, increase scholarly recognition for faculty, catalyze interdisciplinary collaborations, and advance research and creative activities at Syracuse University. The services we offer include:

Proposal Development

The specific support for any given submission is tailored to faculty needs, the size and complexity of the proposal, and ORD team capacity at that time. Generally, the earlier a faculty member requests support, the more supports ORD can provide, which may include:

- **Analyses:** identify key funder goals and alignment with faculty research interests, review prior or similar solicitations, analyze previous award information, and identify characteristics of winning proposals
- **Support documents:** provide checklists, timelines, successful proposal samples, templates, and more
- **Reviews:** provide internal proposal and supplementary document reviews, arrange external reviews

Connecting Research Teams

ORD plays a pivotal role in catalyzing interdisciplinary collaborations across campus, multiplying the impact of individual researchers in pursuing solutions to the complex challenges of today's world. This includes:

- **Fostering connections on/off campus**
- **Navigating the research enterprise:** help faculty connect to the right University offices and services to support their project

Faculty Development

ORD offers diverse capacity-building programming to faculty to serve a wide range of scholars across disciplines, including an **NSF CAREER Series**, **NIH R-Series Cohort**, **Fellowship Proposal Writing Circle**, **Give and Get Proposal Feedback Group**, and more.

Finding Funding

ORD helps faculty plan scholarly funding trajectories and identify the funding opportunities they need to succeed. This includes:

- **Strategic consultation**
- **Funder assessment and competitive intelligence**
- **Identifying funding resources**
- **Funding dissemination**
